## SECTION 1. INTRODUCTION AND BACK GROUND

Rwanda Engineering and Manufacturing Corporation (REMCO) is a company that started in 2018 and is owned by the government of Rwanda. REMCO was established to manufacture machines, equipment and spare parts that were previously imported to serve in the sectors of Agriculture mechanization, Construction, Mining, Automotive, Energy, Defense and Health care. REMCO also provides technical support services to other local as well as regional companies through training repair and maintenance services.

REMCO's requirement for different metals is closely linked to the production of essential maintenance spare parts and specialized components such as machine tool inserts, control systems, transformers, linear displacement devices, and industrial control switches. These items are critical for ensuring precision machining, stable power conversion, accurate positioning, and safe operational control across REMCO's manufacturing and assembly lines.

## SECTION 2. SCOPE OF SERVICE

The successful bidder shall be required to provide these Spare parts as per the required specification and requirements mentioned in this document below in the best quality and they must be able to serve the purpose for which they are intended to.

The above Spare parts shall be offered at the successful bidder's premises and shall be rendered successful upon thorough and clear inspection by the appointed member of REMCO staff.

## SECTION 3. TENDER PRESENTATION AND REQUIREMENTS
